Convention & Arena
Tables, Seating and Storage Solutions
Legendary Durability & Versatility

Virco has been providing mass seating, conference, and dining solutions to large public venues for over 50 years. Today, Virco offers one of the most comprehensive collections of public facilities furniture and storage equipment in the industry - from custom stack chairs and arena folding chairs to standard and light-weight folding tables - all built to withstand the rigors of today’s bustling event schedules.

Designed to tackle storage needs of all types, our stackable table and seating storage equipment both heightens mobility and maximizes efficiency. For facilities facing unique challenges, we specialize in the construction of customized storage systems.

We take great pride in customer satisfaction, providing our PlanSCAPE® computerized layout service to help you optimize both your storage and seating capacities.

Proudly designed, manufactured and assembled by American workers
Upholstered Stack Chairs

The design excellence of our upholstered stack chairs can be seen in their long-lasting performance. Strong, tubular steel frames, quality fabrics and premium upholstery foam give our chairs a competitive edge.

Chairs are available in an array of back styles and our seats give you the long-lasting performance of premium high density seat foam. With a generous seat thickness, our chairs are firm, comfortable and exceptionally durable. Because our foam makes for greater product longevity and seating support, Virco upholstered stack chairs give you the best furniture value for your money.

Stack bars welded to the legs and plastic stack bumpers help protect frames and upholstery when chairs are stacked.

Custom Series

Virco has decades of experience providing customer-specified upholstery color and frame combinations for our Custom Series.

Standard Series

If great value in an upholstered stack chair is what you’re looking for, our Standard 8900 Series Chairs got you covered.

8800 Series

Our padded upholstered Comfort Stack Chairs give you the strength of a 7/8" steel frame and two 3/4" under-seat cross braces and are priced to give you optimum dollar value in a versatile stack chair.
Multi-Purpose Seating

Our multi-purpose chairs are the model of durability. For adaptable, stylish seating that works in a wide range of settings, Virco’s “everywhere chairs” give you a diverse range of choices. With options available in plastic or upholstered seats and backs, these chairs deliver exceptional support and durability. Virco’s complete spectrum of styles and colors deliver seating solutions that are right for your facility.

8830SBG
A combination of strength, durability and stability, our 8830SBG chair can be stacked up to 10 chairs high and stored 100 at a time in the SCT11SU storage cart.

Ultrastack™
With a solid steel-rod frame and a contoured plastic seat and back, this series can be stacked 30-high.

Virtuoso®
Capable of stacking 12-high, this series combines the convenience of a versatile, hard-working chair with the comfort of a patented, articulating back.

Civitas®
Versatile and adaptable, this series can be ordered with Sage™, Zuma® and Analogy® seats and has three different glide options.
Folding Chairs

Thanks to their sensible practicality, folding chairs are classics in the field of multi-purpose furniture. When comfort and convenience are paramount, Virco’s full range of folding chairs can transform any convention or event space at a moment’s notice.

Placing a premium on comfort, our top-of-the line 198G deluxe folding chair features a plush 2 7/8” padded seat. For the same effect with a lower profile, our 190G model’s padding is dropped into a fully enclosed seat pan. From simple to sophisticated, our collection of folding chairs can be customized to fit the functional and aesthetic needs of your venue.

Seating Add-Ons
An arm kit can be added with the ganging feature to create rows of stadium seating on select models.

Easy Access
Seats fold up independently to allow easy passage through rows of chairs.

Customize
Customize the seats with printed logos or stamped branding, even embroidered branding can be added to select models.

A seating location plate can be added to the underside of select models to help easily identify assigned seating locations.
Event Tables

Our Core-a-Gator® line sets the standard of excellence for lightweight folding tables. Up to 40% lighter than traditional tables, Core-a-Gator’s patented extruded aluminum frame makes it superior to lightweight tables that rely on wooden inserts for structural strength and durability.

Since Core-a-Gator frames deliver full perimeter reinforcement, round and crescent-shaped tables perform as well as rectangular tables, and Virco’s patented conical “honeycomb” core provides uniform support for a secure bonding to the top’s outer skins.

Featuring a rugged ABS plastic core, these hard-working tables provide consistent and reliable performance in real-world conditions. In addition to their superior durability, the ease of transport, set-up and tear-down prove Core-a-Gator tables are engineered for the long haul.

Core-a-Gator® Features

ABS Top and Bottom
Patented ABS Honeycomb Core
ABS Bonding Agent
Aluminum Leg Attachment Plate
Aluminum Frame
Corner Bumper
Edge Guard

Banquet Tables
Lightweight and durable, Core-a-Gator tables are perfect for the dynamic nature of banquet settings.

Seminar Tables
Designed to take up a smaller footprint, seminar tables feature innovative gravity-lock legs on all rectangular Core-a-Gator tables.

Shaped Tables
Fit for convention centers, event spaces and everyday settings, our Core-a-Gator® tables come in a variety of shapes and sizes.

Traditional Folding Tables
Strong and foldable with patented protection, our traditional folding tables are reinforced by a steel support apron and our patented Sure Edge banding helps hands and fingers avoid scratches and cuts.
Handling and Storage Equipment

When storage issues get out of control, Virco has the equipment to put them in their place. Designed with the user in mind, our complete line of trucks, dollies and storage carts make moving and storing Virco seating and tables simple, efficient and hassle-free. Whether you require stackable storage trucks, specially configured dollies or high-capacity carts, Virco has storage solutions that deliver. For venues with unique storage challenges, Virco has decades of experience providing custom solutions designed to meet the storage requirements of any environment.

Stackable Storage Carts
Our large-scale, space-saving storage system for tables and chairs allows carts to stack three high.

Chair Dollies
Virco offers a variety of chair dolly models to handle both folding and stacking chairs.

Tables Trucks
Our full line of storage solutions for folding tables and Core-a-Gator tables are engineered to withstand the rigors of high-volume, day-to-day use.

In Your Color

Virco products are available in an inspiring array of color and frame finishes, allowing a full range of expression from traditional to modern. Choose from a selection of standard colors, upholstery or finishes that coordinate seamlessly with a variety of spaces. In addition to our extensive standard palette, Virco is capable of providing custom colors, upholstery, and finishes* for your specific project. We maintain relationships with fabric and vinyl mills around the U.S., and can assist you on specific or custom material request for your upholstered needs. Ask your Virco Sales Representative or contact Customer Service for more information. With a spectrum of colors and finishes to choose from, take some time and enjoy creating products that are perfect for you and your space.

PlanSCAPE® Layout Service

Ask anyone who's done it the hard way; large-scale furniture and equipment acquisitions can eat up your time and energy. Then, ask anyone who's used Virco's PlanSCAPE® service how easy a successful FF&E purchase can be!

By focusing exclusively on capital goods, not consumable items, PlanSCAPE simplifies and expedites the FF&E procurement process while working with you to find the right products for your campus or facility.

PlanSCAPE takes the stress and anxiety out of FF&E purchases. We give you the industry’s best combination of service, convenience and savings. And since PlanSCAPE gives you access to the easy-to-use U.S. Communities™ contract, you can purchase furniture and equipment at great prices without the hassles of bidding.

Safe Environments

Virco proudly complies with all laws and governmental regulations affecting our products, including the California Air Resources Board (CARB) regulation on formaldehyde emissions from composite wood products and the federal Consumer Product Safety Improvement Act of 2008 (CPSIA).

UL GREENGUARD Certification

Virco became the first classroom furniture manufacturer to earn GREENGUARD® indoor air quality certification through the Greenguard for Children and Schools program. Today, hundreds of Virco classroom furniture models have earned this important certification.

ANSI/BIFMA

Please see virco.com for further information or questions on any specific model.

Warranty

Virco will repair or replace, at its option, any Virco furniture or equipment product which proves to be defective in original material or workmanship that may become evident within the first 10 years of the date of purchase and 5 years from the date of purchase for casters, glides, pneumatic cylinders and torsion bars. This is your sole and exclusive remedy. This warranty covers products manufactured after January 1, 2017, as long as product is owned by original purchaser, and is subject to limitations.

Proudly Designed, Manufactured And Assembled By American Workers

Since 1950, when we opened our doors in Southern California, Virco has been proud to design, manufacture and assemble our products in the U.S., keeping quality jobs with U.S. workers and U.S. dollars at home.

One of America’s iconic brands, Virco is the country’s largest manufacturer and supplier of furniture and equipment for K-12 schools. All manufacturing processes – from metal fabrication and woodworking, to plastic injection molding, powder coating and chrome plating – are done in-house at our two state-of-the-art facilities in Torrance, California, and Conway, Arkansas.
