VIRCO MFG. CORPORATION

Notes to unaudited Condensed Consolidated Financial Statements

October 31, 2015

Note 1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the nine months ended October 31, 2015, are not necessarily indicative of the results that may be expected for the fiscal year ending January 31, 2016. The balance sheet at January 31, 2015, has been derived from the audited financial statements at that date, but does not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended January 31, 2015 ("Form 10-K"). All references to the "Company" refer to Virco Mfg. Corporation and its subsidiaries.

Note 2. Correction of Immaterial Errors

In connection with the preparation of the January 31, 2015 consolidated financial statements, the Company determined that certain payments directly made to customers, which were previously included in selling, general, and administrative expenses, should instead be reflected as decreases to net sales. The current year Condensed Consolidated Statement of Operations properly reflects payments directly made to customers as decreases to net sales. While the amounts included in prior year were considered to be immaterial, the Company elected to revise the presentation of previously reported amounts to be consistent with the presentation for the quarter ended October 31, 2015. The change resulted in decreases to net sales, gross margin and selling, general, and administrative expenses of \$379,000 and \$676,000 for the three and nine months ended October 31, 2014, respectively.

Note 3. Seasonality

The market for educational furniture is marked by extreme seasonality, with approximately 50% of the Company's total sales typically occurring from June to August each year, the Company's peak season. Hence, the Company typically builds and carries significant amounts of inventory during and in anticipation of this peak summer season to facilitate the rapid delivery requirements of customers in the educational market. This requires a large up-front investment in inventory, labor, storage and related costs as inventory is built in anticipation of peak sales during the summer months. As the capital required for this build-up generally exceeds cash available from operations, the Company has generally relied on third-party bank financing to meet cash flow requirements during the build-up period immediately preceding the peak season. In addition, the Company typically is faced with a large balance of accounts receivable during the peak season. This occurs for two primary reasons. First, accounts receivable balances typically increase during the peak season as shipments of products increase. Second, many customers during this period are government institutions, which tend to pay accounts receivable more slowly than commercial customers.

The Company's working capital requirements during and in anticipation of the peak summer season require management to make estimates and judgments that affect assets, liabilities, revenues and expenses, and related contingent assets and liabilities. On an ongoing basis, management evaluates its estimates, including those related to market demand, labor costs, and stocking inventory.

Note 4. New Accounting Standards

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2014-09, *Revenue from Contracts with Customers* ("ASU 2014-09") an updated standard on revenue recognition. This ASU will supersede the revenue recognition requirements in Accounting Standards Codification Topic 605, *Revenue Recognition*, and most industry-specific guidance. ASU 2014-09 provides enhancements to the quality and consistency of how revenue is reported while also improving comparability in the financial statements of companies reporting using US GAAP and International Financial Reporting Standards. The core principle of the new standard is for companies to recognize revenue to depict the transfer of goods or services to customers in amounts that reflect the consideration to which the Company expects to be entitled in exchange for those goods or services. In doing so the Company may be required to use more judgment and make more estimates than under current authoritative guidance. ASU 2014-09 will be effective for the Company in the first quarter of fiscal

2018 and may be applied on a full retrospective or modified retrospective approach. The Company is currently evaluating the impact the adoption of this standard will have on its consolidated financial statements.

In August 2014, the FASB issued ASU No. 2014-15, *Presentation of Financial Statements-Going Concern (Subtopic 205-40), Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern*. This standard sets forth management's responsibility to evaluate, each reporting period, whether there is substantial doubt about our ability to continue as a going concern, and if so, to provide related footnote disclosures. The standard is effective for annual and interim reporting periods ending after December 15, 2016. We are currently evaluating this new standard and expect it to have no impact on our financial position and results of operations.

In April 2015, the FASB issued an Accounting Standards Update that requires reporting entities to present debt issuance costs as a direct deduction from the face amount of that note payable presented in the balance sheet. The Accounting Standards Update is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2015, with early adoption permitted. A reporting entity is required to apply the amendments in the Accounting Standards Update retrospectively to all prior periods. The adoption of the Accounting Standards will have no impact on our consolidated financial statements.

In July 2015, the FASB issued authoritative guidance to simplify the subsequent measurement of inventories by replacing the lower of cost or market test with a lower of cost and net realizable value test. This guidance is effective for fiscal years beginning after December 15, 2016, which will be the Company's first quarter of fiscal 2018, and requires prospective adoption, with early adoption permitted. The adoption of this guidance is not expected to have a material impact on the Company's consolidated financial statements or related disclosures.

Note 5. Inventories

Inventories primarily consist of raw materials, work in progress, and finished goods of manufactured products. In addition, the Company maintains an inventory of finished goods purchased for resale. Inventories are stated at lower of cost or market and consist of materials, labor, and overhead. The Company determines the cost of inventory by the first-in, first-out method. The value of inventory includes any related production overhead costs incurred in bringing the inventory to its present location and condition. The Company records the cost of excess capacity as a period expense, not as a component of capitalized inventory valuation.

Management continually monitors production costs, material costs and inventory levels to determine that interim inventories are fairly stated.

Note 6. Debt

Outstanding balances (in thousands) for the Company's long-term debt were as follows:

| | <u>10/31/2015</u> | <u>1/31/2015</u> | <u>10/31/2014</u> |
|-----------------------|-------------------|------------------|-------------------|
| | (in thousands) | | |
| Revolving credit line | \$ 4,018 | \$ 9,366 | \$ 7,967 |
| Other | 114 | 153 | 204 |
| Total debt | <u>4,132</u> | <u>9,519</u> | <u>8,171</u> |
| Less current portion | 68 | 3,366 | 2,018 |
| Non-current portion | <u>\$ 4,064</u> | <u>\$ 6,153</u> | <u>\$ 6,153</u> |

On December 22, 2011, the Company entered into a Revolving Credit and Security Agreement (the "Credit Agreement") with PNC Bank, National Association ("PNC"). The credit agreement currently matures on December 22, 2017 and has a maximum availability of \$50,000,000, including sub-lines for letters of credit and equipment financing. Borrowings under the Credit Agreement bear interest at either the Alternate Base Rate (as defined in the Credit Agreement) plus 0.75% to 1.75% or the Eurodollar Currency Rate (as defined in the Credit Agreement) plus 1.75% to 2.75%. The interest rate at October 31, 2015 was 4%. Approximately \$13,331,000 was available for borrowing as of October 31, 2015.

The Credit Agreement prohibits the Company from issuing dividends or making payments with respect to the Company's capital stock, and contains numerous other covenants, including these financial covenants: (1) minimum tangible net worth, (2)

fixed charge coverage ratio, and (3) minimum EBITDA amount, in each case as of the end of the relevant monthly, quarterly or annual measurement period. The Company was in compliance with its covenants during the first three quarters of 2015. Pursuant to the Credit Agreement, substantially all of the Company's accounts receivable are automatically and promptly swept to repay amounts outstanding under the Revolving Credit Facility upon receipt by the Company. In addition, the Credit Agreement contains a clean down provision that requires the Company to reduce borrowings under the line to less than \$6,000,000 for a period of 60 consecutive days each fiscal year. On June 18, 2015, the Company entered into Amendment No. 10 to the Credit Agreement which, among other things, increased the borrowing availability for the period from June 18, 2015 through August 15, 2015. On December 2, 2015, the Company entered into Amendment No. 11 to the Credit Agreement which, among other things, modified the clean down requirement, commencing in calendar year 2015, during the period between October 1st and December 31st of each year to permit Revolving Advances in the aggregate to exceed \$6,000,000 at any time for a period of 30 consecutive days during such period.

The Company believes that the Revolving Credit Facility will provide sufficient liquidity to meet its capital requirements for at least in the next 12 months. Management believes that the carrying value of debt approximated fair value at October 31, 2015 and 2014, as all of the long-term debt bears interest at variable rates based on prevailing market conditions.

Note 7. Income Taxes

The Company recognizes deferred income taxes under the asset and liability method of accounting for income taxes in accordance with the provisions of ASC No. 740, *Accounting for Income Taxes*. Deferred income taxes are recognized for differences between the financial statement and tax basis of assets and liabilities at enacted statutory tax rates in effect for the years in which the differences are expected to reverse. The effect on deferred taxes of a change in tax rates is recognized in income in the period that includes the enactment date. In assessing the realizability of deferred tax assets, the Company considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income or reversal of deferred tax liabilities during the periods in which those temporary differences become deductible. Based on this consideration, the Company determined the realization of a majority of the net deferred tax assets do not meet the more likely than not criteria and a valuation allowance was recorded against the majority of the net deferred tax assets at October 31, 2015. The effective tax rate for the quarter ended October 31, 2015 was impacted by the valuation allowance recognized against state deferred tax assets and discrete items associated with non-taxable permanent differences.

The years ended January 31, 2012, January 31, 2014 and subsequent years remain open for examination by the IRS. The fiscal years ended January 31, 2011 and subsequent years remain open for examination by state tax authorities. The Company is not currently under IRS or state examination.

As of October 31, 2015, the Company has \$137,000 of uncertain tax positions accrued. The specific timing of when the resolution of each tax position will be reached is uncertain. As of October 31, 2015, we do not believe that there are any positions for which it is reasonably possible that the total amount of unrecognized tax benefits will significantly increase or decrease within the next 12 months.

Note 9. Stock-Based Compensation and Stockholders' Rights

Stock Incentive Plans

The Company's two stock plans are the 2011 Employee Stock Incentive Plan (the "2011 Plan") and the 2007 Employee Incentive Stock Plan (the "2007 Plan"). Under the 2011 Plan, the Company may grant an aggregate of 2,000,000 shares to its employees and non-employee directors in the form of stock options or awards. Restricted stock or stock units awarded under the 2011 Plan are expensed ratably over the vesting period of the awards. The Company determines the fair value of its restricted stock unit awards and related compensation expense as the difference between the market value of the awards on the date of grant less the exercise price of the awards granted. The Company granted 75,174 awards under the 2011 Plan during the nine month periods ended October 31, 2015. As of October 31, 2015, there were approximately 803,520 shares available for future issuance under the 2011 Plan.

Under the 2007 Plan, the Company may grant an aggregate of 1,000,000 shares to its employees and non-employee directors in the form of stock options or awards. Restricted stock or stock units awarded under the 2007 Plan are expensed ratably over the vesting period of the awards. The Company determines the fair value of its restricted stock unit awards and related compensation expense as the difference between the market value of the awards on the date of grant less the exercise price of the awards granted. The Company granted 0 awards under the 2007 Plan during 2015 and 0 awards under the 2007 Plan during the quarter ended October 31, 2015. As of October 31, 2015, there were approximately 13,075 shares available for future issuance under the 2007 Plan.

Note 10. Stockholders' Equity

In June 2015, the Board of Directors terminated the Company's common stock repurchase plan. Prior to the termination, the Company did not repurchase any shares of its common stock during nine months ended October 31, 2015. Pursuant to the Company's Credit Agreement with PNC, the Company is prohibited from repurchasing any shares of its stock except in cases where a repurchase is financed by a substantially concurrent issuance of new shares of the Company's common stock.

Note 11. Retirement Plans

The Company and its subsidiaries cover certain employees under a noncontributory defined benefit retirement plan, entitled the Virco Employees' Retirement Plan (the "Pension Plan"). Benefits under the Employees Retirement Plan are based on years of service and career average earnings. As more fully described in the Form 10-K, benefit accruals under the Employees Retirement Plan were frozen effective December 31, 2003.

The Company also provides a supplementary retirement plan for certain key employees, the VIP Retirement Plan (the "VIP Plan"). The VIP Plan provides a benefit of up to 50% of average compensation for the last 5 years in the VIP Plan, offset by

benefits earned under the Pension Plan. As more fully described in the Form 10-K, benefit accruals under this plan were frozen effective December 31, 2003.

The Company also provides a non-qualified plan for certain former non-employee directors of the Company (the “Non-Employee Directors Retirement Plan”). The Non-Employee Directors Retirement Plan provides a lifetime annual retirement benefit equal to the director’s annual retainer fee for the fiscal year in which the director terminated his or her position with the Board, subject to the director having provided 10 years of service to the Company. As more fully described in the Form 10-K, benefit accruals under this plan were frozen effective December 31, 2003.

The net periodic pension cost (income) for the Pension Plan, the VIP Plan, and the Non-Employee Directors Retirement Plan for the three months and nine months ended October 31, 2015 and 2014 were as follows (in thousands):

Note 12. Warranty Accrual

The Company provides a warranty against all substantial defects in material and workmanship. In 2005 the Company extended its standard warranty from five years to 10 years. Effective February 1, 2014 the Company modified its warranty to a limited lifetime warranty. The new warranty effective February 1, 2014 is not anticipated to have a significant effect on warranty expense. The Company’s warranty is not a guarantee of service life, which depends upon events outside the Company’s control and may be different from the warranty period. The Company accrues an estimate of its exposure to warranty claims based upon both product sales data and an analysis of actual warranty claims incurred.

The following is a summary of the Company’s warranty-claim activity for the three months and nine months ended October 31, 2015 and 2014.

Note 13. Subsequent Events

On December 2, 2015, the Company entered into Amendment No. 11 to the Credit Agreement which, among other things, modified the clean down requirement, commencing in calendar year 2015, during the period between October 1st and December 31st of each year to permit Revolving Advances in the aggregate to exceed \$6,000,000 at any time for a period of 30 consecutive days during such period.

We have evaluated subsequent events to assess the need for potential recognition or disclosure in this Quarterly Report on Form 10-Q. Such events were evaluated through the date these financial statements were issued. Based upon this evaluation, it was determined that, no subsequent events occurred that required recognition or disclosure in the financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

The Company's business activity and results of operations for the three and nine month periods ended October 31, 2015 continue to show strength and improvement following the deep recessionary environment which began in 2008 and continued through 2013. Most states tax revenues have recovered to levels existing prior to the 2008 recession and the Company's order rates have been reflecting this improvement. However, bond funded new school construction and major renovations continue to remain at levels well below levels experienced prior to the recession.

Virco's business is extremely seasonal, with approximately 50% of the company's annual revenue occurring in the months of June, July, and August. Orders are nearly as seasonal with approximately 45% of annual orders received in May, June, and July. Typically, June is the largest month for orders followed by July. The current year more closely followed the traditional seasonal norms. The prior year experienced a shift in the timing of both orders and deliveries in the Company's primary market. Because the end of the second quarter falls in the middle of the summer, shifts in order and delivery patterns caused by weather, construction delays, or funding uncertainty can impact the portion of business reported in the second versus third quarter. Orders, which normally peak in June, peaked in July 2014. This shifted more deliveries into the third quarter, which began August 1, 2014. The impact of these factors is typically not significant for the nine months ended October 31.

Heading into the seasonally slow fourth quarter of November through January, business activity appeared to be moderating compared to the trend through the first part of the year. Year-to-date shipments plus our order backlog as of October 31, 2015 increased by 3% compared to the same metric last year. This represents a moderate decrease from the second where shipments plus order backlog increase by 6% compared to the prior year. Our order backlog at October 31, 2015 decreased by approximately \$6 million compared to the prior year.

For the three months ended October 31, 2015, the Company earned a pre-tax profit of \$6,140,000 compared to a pre-tax profit of \$4,400,000 in the same period last year.

Net sales for the three months ended October 31, 2015 increased to \$64,981,000, an increase of \$2,708,000, or 4.3%, compared to \$62,273,000 during the same period last year. The increase was primarily attributable to increases in selling prices.

Gross margin improved to 35.7% compared to 33.2% in the prior year. The increased gross margin was attributable to increased selling prices combined with stable material costs and efficiencies related to increased production levels.

Improvements in margin were offset by a slight increase in variable selling, general and administrative expenses. The increase in variable selling, general, and administrative expenses was primarily due to an accrual for performance bonuses. Interest expense decreased slightly compared to the prior year.

For the nine months ended October 31, 2015, the Company earned a pre-tax profit of \$10,490,000 compared to a pre-tax profit of \$6,035,000 in the same period last year.

Net sales for the nine months ended October 31, 2015 were \$149,100,000, an increase of \$10,402,000 or 7.5% increase, compared to \$138,698,000 in the same period last year. This increase was the result of an increase in selling price combined with an increase in unit volume.

Gross margin as a percentage of sales improved to 37.2% for the nine months ended October 31, 2015 compared to 35.6% in the same period last year. The improvement in gross margin was attributable to an increase in selling prices, stable material costs, and efficiencies related to increased production levels. Factory production hours for the nine months ended October 31, 2015 increased by 7% compared to the prior year primarily due to the corresponding increase in business activity.

Selling, general and administrative expenses for the nine months ended October 31, 2015 increased by approximately \$1,706,000 compared to the same period last year. This increase was the result of variable selling costs and an accrual for performance bonuses.

In the first nine months of 2015 the Company did not record significant income tax expense / (benefit). The effective income tax rate for the quarter ended October 31, 2015 was impacted by the valuation allowance and state income and franchise taxes.

Liquidity and Capital Resources

Interest expense decreased for the nine months ended October 31, 2015 compared to the same period last year. This is primarily due to lower average levels of borrowing under the Company's credit facility with PNC Bank to fund inventory. Borrowings under the Company's revolving line of credit with PNC Bank at October 31, 2015 decreased by approximately \$4,000,000 compared to October 31, 2014 primarily due to increased levels of cash from operations and timing of payables.

Accounts receivable was greater at October 31, 2015 than at October 31, 2014 due to the timing of third quarter shipments. A larger portion of the current year third quarter revenue was shipped in September and October, which increased the receivable balance at October 31, 2015. The Company traditionally builds large quantities of inventory during the first and second quarters of each fiscal year in anticipation of seasonally high summer shipments. At the end of the third quarter, inventory increased by approximately \$490,000 compared to January 31, 2015 and decreased by \$1,258,000 compared to October 31, 2014. The seasonal fluctuation in inventory levels (including the typically large buildup in inventory during the first and second quarters) was financed through the Company's credit facility with PNC Bank and cash provided by operations.

For 2015 the Company adopted a goal of limiting capital spending to less than \$3,000,000 for fiscal year 2015, which is less than the Company's anticipated depreciation expense. Capital spending for the nine months ended October 31, 2015 exceeded our target and was \$3,583,000 compared to \$2,584,000 for the same period last year. The increase in capital expenditures was primarily attributable to increased spending on information systems. Capital expenditures are being financed through the Company's credit facility with PNC Bank and cash flow from operations.

Net cash provided by operating activities for the nine months ended October 31, 2015, was \$10,294,000 compared to \$2,954,000 for the same period last year. The increase was primarily attributable to improved profitability and slightly increased current liabilities offset by an increase in receivables. The Company has generally relied upon its cash flows from operations and unused borrowing capacity with PNC Bank (which was \$13,331,000 as of October 31, 2015) to fund the Company's capital expenditures and working capital needs.

The Company believes that cash flows from operations, together with the Company's unused borrowing capacity with PNC Bank will be sufficient to fund the Company's capital expenditures and working capital needs for the next twelve months.

Critical Accounting Policies and Estimates

The Company's critical accounting policies are outlined in its Form 10-K. There have been no changes in the quarter ended October 31, 2015.

Such forward-looking statements may be included in, without limitation, reports to stockholders, press releases, oral statements made with the approval of an authorized executive officer of the Company and filings with the Securities and Exchange Commission. The words or phrases "anticipates," "expects," "will continue," "believes," "estimates," "projects," or similar expressions are intended to identify "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. The results contemplated by the Company's forward-looking statements are subject to certain risks and uncertainties that could cause actual results to vary materially from anticipated results, including without limitation, availability of funding for educational institutions, availability and cost of materials, especially steel, availability and cost of labor, demand for the Company's products, competitive conditions affecting selling prices and margins, capital costs and general economic conditions. Such risks and uncertainties are discussed in more detail in the Company's Form 10-K.

The Company's forward-looking statements represent its judgment only on the dates such statements were made. By making any forward-looking statements, the Company assumes no duty to update them to reflect new, changed or unanticipated events or circumstances.

Item 1. Legal Proceedings

The Company has various legal actions pending against it arising in the ordinary course of business which, in the opinion of the Company, are not material in that management either expects that the Company will be successful on the merits of the pending cases or that any liabilities resulting from such cases will be substantially covered by insurance. While it is impossible to estimate with certainty the ultimate legal and financial liability with respect to these suits and claims, management believes that the aggregate amount of such liabilities will not be material to the results of operations, financial position, or cash flows of the Company.

The execution, delivery and performance of this Amendment (i) are within such Borrower’s powers, have been duly authorized by all necessary company action, are not in contravention of law or the terms of such Borrower’s by-laws, certificate of incorporation, or other applicable documents relating to such Borrower’s formation or to the conduct of such Borrower’s business or of any material agreement or undertaking to which such Borrower is a party or by which such Borrower is bound, (ii) will not conflict with or violate any law or regulation, or any judgment, order, writ, injunction or decree of any court or Governmental Body, (iii) will not require the Consent of any Governmental Body or any other Person, except those Consents which

will have been duly obtained, made or compiled prior to date hereof and which are in full force and effect, and (iv) will not conflict with, nor result in any breach in any of the provisions of or constitute a default under or result in the creation of any Lien except Permitted Encumbrances upon any asset of such Borrower under the provisions of any material agreement, charter document, instrument, by-law or other instrument to which such Borrower is a party or by which it or its property is a party or by which it may be bound.

(b) After giving effect to this Amendment, the representations and warranties contained in the Credit Agreement are true and correct in all material respects except to the extent any such representation or warranty is expressly stated to have been made as of a specific date, in which case each such representation and warranty is true and correct in all material respects as of such specific date, and no Default or Event of Default has occurred and is continuing.

6. Reaffirmation. Except as specifically modified by this Amendment, the Credit Agreement and the other Loan Documents remain in full force and effect in accordance with their respective terms and are hereby ratified, reaffirmed and confirmed by Borrowers.

7. Events of Default. Any failure to comply with the terms of this Amendment will constitute an Event of Default under the Credit Agreement.

8. Integration. This Amendment, together with the Credit Agreement and the Loan Documents, incorporates all negotiations of the parties hereto with respect to the subject matter hereof and is the final expression and agreement of the parties hereto with respect to the subject matter hereof.

9. Severability. If any part of this Amendment is contrary to, prohibited by, or deemed invalid under Applicable Laws, such provision shall be inapplicable and deemed omitted to the extent so contrary, prohibited or invalid, but the remainder hereof shall not be invalidated thereby and shall be given effect so far as possible.

10. Submission of Amendment. The submission of this Amendment to the parties or their agents or attorneys for review or signature does not constitute a commitment by Agent or Lenders to amend or otherwise modify any of the provisions of the Credit Agreement and this Amendment shall have no binding force or effect until the Eleventh Amendment Effective Date.

11. Counterparts; Facsimile Signatures. This Amendment may be executed in any number of and by different parties hereto on separate counterparts, all of which, when so executed, shall be deemed an original, but all such counterparts shall constitute one and the same agreement. Any signature delivered by a party by facsimile transmission shall be deemed to be an original signature hereto.

12. Governing Law. This Amendment is a Loan Document and is governed by the Applicable Law pertaining in the State of New York, other than those conflict of law provisions that would defer to the substantive laws of another jurisdiction. This governing law election has been made by the parties in reliance on, among other things, Section 5-1401 of the General Obligations Law of the State of New York, as amended (as and to the extent applicable), and other Applicable Law.

13. Successors and Assigns. This Amendment shall be binding upon and inure to the benefit of Borrowers, Lenders, Agent, and all future holders of the Obligations and their respective successors and assigns, except that no Borrower may assign or transfer any of its rights or obligations under this Amendment without the prior written consent of Agent.

14. Attorneys' Fees; Costs. Borrowers agree to promptly pay, upon written demand, all reasonable and documented attorneys' fees and costs incurred in connection with the negotiation, documentation and execution of this Amendment. If any legal action or proceeding shall be commenced at any time by any party to this Amendment in connection with its interpretation or enforcement, the prevailing party or parties in such action or proceeding shall be entitled to reimbursement of its reasonable attorneys' fees and costs in connection therewith, in addition to all other relief to which the prevailing party or parties may be entitled.

15. Jury Trial Waiver. To the extent not prohibited by applicable law, each party to this Amendment hereby expressly waives any right to trial by jury of any claim, demand, action, or cause of action (a) arising under this Amendment or any other instrument, document, or agreement executed or delivered in connection herewith, or (b) in any way connected with or related or incidental to the dealings of the parties hereto or any of them with respect to this Amendment or any other instrument, document, or agreement executed or delivered in connection herewith, or the transactions related hereto or thereto in each case whether now existing or hereafter arising, and whether sounding in contract or tort or otherwise and each party hereto hereby consents that any such claim, demand, action, or cause of action shall be decided by court trial without a jury, and that any party to this Amendment may file an original counterpart or a copy of this Section with any court as written evidence of the consents of the parties hereto to the

waiver of their right to trial by jury. Without limiting the applicability of any other provision of the Credit Agreement, the terms of Article XII of the Credit Agreement shall apply to this Amendment.

16. Total Agreement. This Amendment, the Credit Agreement, and the other Loan Documents contain the entire understanding among Borrowers, Lenders and Agent and supersede all prior agreements and understandings, if any, relating to the subject matter hereof. Any promises, representations, warranties, or guarantees not herein contained and hereinafter made have no force and effect unless in writing, signed by Borrowers' and Agent's respective officers. Neither this Amendment nor any portion or provisions hereof may be changed, modified, amended, waived, supplemented, discharged, cancelled, or terminated orally or by any course of dealing, or in any manner other than by an agreement in writing, signed by the party to be charged. Each Borrower acknowledges that it has been advised by counsel in connection with the execution of this Amendment and the other Loan Documents and is not relying upon oral representations or statements inconsistent with the terms and provisions of this Amendment.
