YOZI™

nesting chair + desk system

VIRCO®

Equipment for Educators™

Ready...Set...YOZI™!

The YOZI Series is the first complete nesting chair and desk collection built for active K-12 spaces. With its innovative design, YOZI moves easily between teaching, collaboration, and storage — adapting to every kind of learning space.

Smart Storage and Organization

Innovative optional accessories – from desk caddies and cup holders to tablet arms and book racks – remain attached during nesting and transport.

Expanding Possibilities

Designed by the award-winning team of Peter Glass and Bob Mills, the versatile YOZI chair-and-desk system adapts to active, modern learning spaces – then easily nests and tucks away. Available in two sizes, it's designed to span the needs of K-12 learning.

15" Chair

18" Chair

27" Desk
18" x 24" top

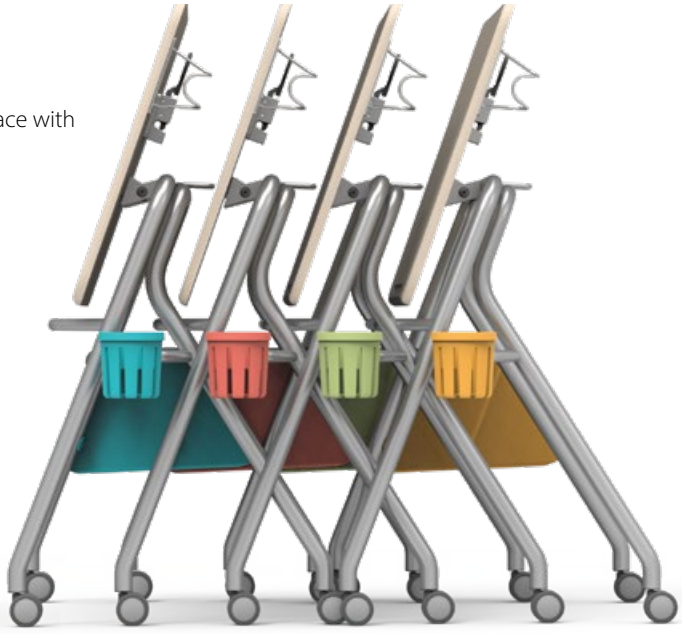

29" Desk
20" x 26" top

Flip Up, Nest and Tuck Away

YOZI changes the way classrooms move. With tapered legs and a clever flip-up seat and work surface, chairs and desk nest together for easy transport — even with accessories attached.

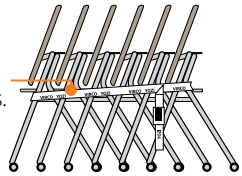

Maximize storage space with tight nesting density

For easier handling, the optional **YZSTRAP** can be used to secure and transport nested chairs or desks.

Mix, Match and Coordinate

Endless color combinations with YOZI chairs, desks, and accessories.

More Than A Desk Top

Show school spirit with logo desktops, color-coordinated chairs, and matching accessories.

Put the hard plastic surface to work as a built-in dry erase board for brainstorming, note-taking, and on-the-spot collaboration.

Reimagine Your Space

YOZI transforms classrooms into active spaces where students and teachers can shape how they learn, teach and collaborate. Rearrange for group work, line up for lectures, or nest everything aside to open the room.

Set up in rows for teacher-focused learning

Reconfigure easily for group collaboration

Flip, nest, and roll away to open the space

YOZI™ Series

The complete YOZI collection is built to serve every stage of K–12 education, featuring both mobile nesting and non-nesting options to accommodate all classroom needs.
